#	Document ID	Title
1	US 5386369 A	License metering system for software applications
2	US 5388211 A	Method and apparatus for remotely controlling and monitoring the use of computer software
3	US 5497479 A	Method and apparatus for remotely controlling and monitoring the use of computer software.
4	US 5590056 A	Method and apparatus for computer program usage monitoring
5	US 5613089 A	Method and apparatus for remotely controlling and monitoring the use of computer software
6	US 5623647 A	Application specific clock throttling
7	US 5649187 A	Method and apparatus for remotely controlling and monitoring the use of computer software
8	US 5717604 A	Network monitoring system for tracking, billing and recovering licenses
9	US 5778182 A	Usage management system
10	US 5819156 A	PC/TV usage tracking and reporting device
11	US 5915243 A	Method and apparatus for delivering consumer promotions
12	US 5930357 A	Method of managing contracts for licensed program use and a management system thereof
13	US 5949415 A	Method and apparatus for tracking program usage in a computer system

Document ID		Title
14	US 5958010 A	Systems and methods for monitoring distributed applications including an interface running in an operating system kernel
15	US 6011837 A	Marketing control program
16	US 6122663 A	Method and apparatus for tracking program execution time in a computer system
17	US 6263457 B1	Remote monitoring of computer programs
18	US 6351847 B1	Method and device for acquiring usage data of application
19	US 6381632 B1	Method and apparatus for tracking network usage
20	US 6389538 B1	System for tracking end-user electronic content usage
21	US 6446192 B1	Remote monitoring and control of equipment over computer networks using a single web interfacing chip
22	US 6505201 B1	Apparatus for monitoring individual internet usage
23	US 6519581 B1	Collection of information regarding a device or a user of a device across a communication link
24	US 6678824 B1	Application usage time limiter
25	US 6721795 B1	Data transfer server
26	US 6782350 B1	Method and apparatus for managing resources
27	US 6832250 B1	Usage-based billing and management system and method for printers and other assets

Document ID	Title
28	US 6850530 B1	Methods and apparatus for providing and obtaining resource usage information
29	EP 478571 B	Remotely controlling and monitoring computer software use – down loads software from host and monitors usage securely and bills on 'pay as you use' basis
30	US 5918004 A	Remote monitoring method for computer program execution at remote site
31	US 5949415 A	Application program monitoring method in client computer
32	EP 952522 A	Usage data acquisition method for computer application
33	US 6023507 A	Remote monitoring system for computer system
34	US 6018619 A	Method for tracking usage patterns of users of hypermedia systems, such as the World-Wide Web
35	WO 20006223 A	Web based asset billing and management system for enterprises, has remote server that stores encoded usage data received from local server in remote database
36	JP 2001037099 A	Battery backup system recognizes threshold time for performing battery backup operation of main apparatus from data corresponding to amount of power consumed by apparatus and from measured battery backup time

Document ID	Title
37	US 6263457 B	Computer program remote performance monitoring method for use during software development involves adding monitoring and data gathering instructions to program which, when run, send gathered data to remote system for analysis
38	US 20020083003 A	Fee based software applications access enabling method involves monitoring client application usage information at client computer, based on which user account is debited
39	US 6446119 B	Usage monitoring method for computer system, involves storing snapshots of screen image viewed by each user periodically on intercepting data transmission to monitor usage status from different user screen
40	US 20010011264 A1	METHOD AND SYSTEM FOR CREATING AND USING A COMPUTER USER'S PERSONAL INTEREST PROFILE
41	US 20010054026 A1	Method of and system for monitoring an application
42	US 20040002326 A1	System and method for application management through threshold events
43	US 20040003279 A1	User controls for a computer
44	US 20040051733 A1	Method and system for parental internet control

Document ID	Title
45	US 20040267548 A1	Workload profiling in computers
46	US 20050004879 A1	System and method to monitor amount of usage of applications in logical partitions
47	US 20050086239 A1	System or method for analyzing information organized in a configurable manner
